ABOUT ME

An enthusiastic and accomplished web designer with strong team leadership skills and wide-ranging experience implementing front-end solutions for consumer facing web sites. Bringing forth expertise on design, installation, testing and maintenance of web systems. Able to analyze customer requirements and use own technical coding skills to create truly effective, user-friendly web solutions in a variety of programming languages. Seeking opportunity to transfer comprehensive skill-set to a dynamic organization while leveraging ability to collaborate as a leader to integrate positive change and improve internal processes.
